

The CD with the live concert Nimwegen 1994

EVERDREAMS was released on **NEWS-music** in 1994. **EVERDREAMS** is the studio produced version of the successful **Robert Schroeder** live concert from **Nijmegen, NL 08.10.1994**. **EVERDREAMS** offers very different musical atmospheres and connects styles like trance, ambient, electronics, Berlin school, sphere and soft rock.

EVERDREAMS is timeless Synthesizer instrumental musik, *Evergreens* of the Electronic Music. **BIG OCEAN** opens this 73 minutes longplay CD and is the musically interpretation of the freedom of the ocean. The look on the ocean makes you thoughtful, let you dream, take you far away. Dreamy and spherical excursions invite you also to a journey of thoughts as the pulsing titles of this 12th solo production of the German sound artist **Robert Schroeder**. This CD offers a wide musically range, from meditation up to groovy rhythms.

The title **Smoothing Shadows** which was accompanied by ex **Warlock** guitar player **Christian Guth** with the E-guitar, likewise together with the drummer **Horst Schippers**, which accompanied entire the *Schroeder* Live concert in Nimwegen.

In 2009 Robert has done a sound update with **EVERDREAMS**. Not re-mixed but an all over sound correction with new computer technology. The result is a very powerful and fat sound, you can hear much more particular sounds against the original version.

After the Original CD is sold out (we have only a few copies rest of the Original), **EVERDREAMS** is available in this high power sound update as CDR only.

Best tracks: 1, 4, 5, 7
