

DOUBLE FANTASY is now FOOD FOR FANTASY

THE NEW ALBUM FROM FOOD FOR FANTASY

FRUITS OF FANTASY is the title of the new CD by the Duo **FOOD FOR FANTASY**. The previous album *The Secret OF Dreamin'* (Spheric Music, 2006) was the revival of the legendary project **DOUBLE FANTASY**. Now, the artists **DREAMSTAR** and **PHIL MOLTO** present a fantastic new album.

FOOD4FANTASY is according to standard particularly characterised by its own musical style, which **Robert Schroeder** had created end of the 80's with its project **DOUBLE FANTASY** and so that especially in the USA celebrated large successes. The fresh sound of modern Synthesizers combined with spherical E-guitar melodies support the excellent compositions and arrangements of this new F4F album *Fruits OF Fantasy*. Also the highly dissolving 24bit production offers very high dynamics and a generally clear transparent sound. Analogue sounds, groovy sequences and rhythms, beautiful melodies and warm guitar sounds evoke a spacey atmosphere, associating a gentle summer breeze and a feeling of sun, freedom, adventure, experience and relaxation.

This fresh summer feeling is supported also by the cover design of the CD. The name **FOOD FOR FANTASY** refers not only to the music, but also to the fruity cover motives. While *The Secret OF Dreamin'* is dedicated to the design of the Kiwi fruit, the new album *Fruits OF Fantasy* features the lemon as its formative element. Also future CD cover will feature artistically designed fruits. For art lovers and collectors the cover will soon be available in a glass framework in a size of 30 X 30 cm.

The 8 tracks of this new Electronic Music CD offer different atmospheres, from spherically dreamy Downbeat to rhythmically lively Upbeat. Also fans of longer tracks will enjoy this new album. All in all this release, produced by **Robert Schroeder**, should come up to all expectations one has for good electronic music. The CD *Fruits OF Fantasy* of **FOOD 4 FANTASY** is scheduled for publication in September 2008, of course on Lambert Ringlage's **SPHERIC MUSIC** (catalogue number: SMCD-2013). Have much fun.
