## HAMAJA - A Place Of Refuge

1991 Robert Schroeder has separated from the *da-music Ltd.* and found his own label **NEWS-music**. The worldwide distribution ways has to be rebuilt again for the young label *NEWS-music records*.

As a foundation debut served of *Schroeder NEWS-music* immediately an anniversary album, with his own 10th solo album. *HAMAJA* is the title of new Robert Schroeder published on **20.09.1991** as a CD. The separation from *da-music ltd.* brought for Schroeder, in any case, none artistically / to musical disadvantages. On the contrary, *HAMAJA* was generally evaluated by **KEYBOARDS** (issue 3/92) as the **best Robert Schroeder-Album**. The fact that still the name "**king of the meditation**" is entitled to the artist after his 10th production, was confirmed again by the **STYLE Magazine** in the issue March/'92 as an answer to *HAMAJA*.

**HAMAJA** is an animation for the senses, synthesizer music for the mind, for the heart and the soul. *HAMAJA* - meditative sphere sounds, romantic melodies and dynamic rhythm part - a synthisensible work for sensitive hours. "*HAMAJA*" comes from the Hebrew and signifies "place of the shelter", a place of refuge. And exactly for that Robert Schroeder has created his work *HAMAJA*.

*"HAMAJA - this is no place in which you sit or where you can look. HAMAJA is the place which you prepare for yourself where you are alone with your thoughts, feelings and senses. Create this place where always you would want and whenever you need him. If you have found your quite individual place, HAMAJA enjoys, unites your forces with your imagination and you will find your quite personal place - a place of the shelter - HAMAJA"* (by Edgar Thönnissen).

**HAMAJA** is animation for your senses, synthesizer music for the brain, for the heart and the soul. *HAMAJA* - meditative sphere sounds, romantic melodies and dynamic rhythmic parts - a synthisensible work for sensible hours.
