

CAN YOU DREAM?

then "*the secret of dreamin'*", the new CD of *FOOD 4 FANTASY*, is exactly right.

This is the real original sound of **Robert Schroeder's** original *DOUBLE FANTASY* and the second album after the successful debut "*Universal Ave.*" from 1986, which have had especially in the USA under the music description "*californian dreaming*" sensation success and which reached the US charts.

The duet *DOUBLE FANTASY* is now called *FOOD 4 FANTASY* and the new guitar player is **Phil Molto** (before *Charly McLion*). This second album attaches seamlessly in the typical style and sound of *Universal Ave.*. "*The secret of dreamin'*" gives you the feeling of the sun, freedom, adventure, experience and relaxation.

Just once half a year after publication of his 14th solo album **brainCHIPS** (Spheric Music SMCD-2010 /11) there waits **Robert Schroeder** on with a long desired and hardly expected subsequent album of his almost quite legendary *DOUBLE FANTASY* project from end of the 80s. At that time there were disagreements with the record company which had prevented living of *Schroeder's* original *Double Fantasy*. Now the record company is flat and *Schroeder* existed still - and with it now also again *DOUBLE FANTASY*, just only under new name. But it depends on the music - and it has survived likewise without damage to the environment and now is continued by *Robert Schroeder*, here alias **DREAMSTAR**.

When *Lambert Ringlage*, owner of the publishing label **SPHERIC MUSIC**, heard the CD from *FOOD 4 FANTASY*, he was completely inspired, his first words were:

"yes, a nice work you have produced there! Cool sounds!"

Lambert circumscribed the music further with:

Track 1: Exciting Atmo-Intro, to me famously seeming rhythm starts.

Track 2: hypnotically (*Ashra* associations), as if one drive on a highway wide distances

Track 3: guitar sounds remind me of *Eroc* (cloud trip).

Track 4: Spacy beginning, the "stumpingmaschine" starts, the distorted melodic e-guitar starts ... first-class!! Also I like the application of the drums.

Track 9: Cool application! Rhythm, sequence and e-guitar brilliantly!!

Track 11: Really! Nice bass, nice around-application, great e-guitar!!

All in all - a sunny fresh breeze in the typical original *Double Fantasy* sound. If one must simply have belonged. Is able to one also, because the CD chock-full with music (78 min.!) "*the secret of dreamin'*" of *FOOD 4 FANTASY* is published on the 20th May, 2006, on *Lambert Ringlage* **SPHERIC MUSIC** of course (catalogue No.: SMCD-2012).

**Robert Schroeder's original *DOUBLE FANTASY* is now called *FOOD 4 FANTASY*
the secret of dreamin' is the new album ... release in May 2006**
