

LP & CD incl. the success title „THE MESSAGE“

Early **1987** *Robert Schroeder* has published the number eight of his solo career. **TIMEWAVES** is a journey through the history of electronic devices and synthesizer times. Here many moods are included, which have evolved from the nearly 20-years synthesizer history. From meditation up to great soundscapes, soft electronic and beautiful sounding synthy pop rhythms.

Particularly the CD version *TIMEWAVES* with his over 60-minute repertoire is once again a masterpiece which received approval with idea, composition, production and sound as a reference for **1987**. Because *Schroeder* reached with his album **TIMEWAVES** in the **WDR vibrations choice' 87** dreamlike ranges: *TIMEWAVES* became the third best album of the year **1987**, Robert Schroeder to the second most popular artist and the title **THE MESSAGE** to the best track, the No.1 of the year **1987**.

The title "*THE MESSAGE*" originally was not intended for a LP release, but should be produced for a well known entertainment factory. *THE MESSAGE* should be used as a demonstration music for high quality car HiFi systems.

The CD version contains a bonus track (*IMAGINE*) and a longer version of the title *WAVESPAPE* as the LP version. *TIMEWAVES* is exciting and relaxing Electronic Music like Chill Out, Lounge, Space, Berlin School and Ambient music.

At the same time *Robert Schroeder* founded the duo **DOUBLE FANTASY** (*Robert Schroeder* here alias **DREAMSTAR** and Charly Büchel alias **Charly McLion**). The debut album **Universal Ave.** reached the US Billboard charts within a short period of time.
