

**NEW CD**

**SUCH MUSIC YOU HAVE NEVER HEARD BEFORE!**

It is an exciting moment, when putting an unheard CD the first time in your player. You don't know what to expect. But if you listen to the first track of **TASTE IT**, you soon become curious of all other tracks of the CD.

Tropical rain and distant thunder, effects of the analogue synthesizer, drops in a cave and deep fields of warm synthesizer sounds ... this is the beginning of the new electronic work **Taste It** by the German sound artist **Robert Schroeder**.

Relaxing groovy rhythms and sequences are added and an exciting journey starts. The title track **Taste It** reminds us of the track **The Message**, a successful title from the 80s by *Robert Schroeder*. Also **Reminded Of Paradise** is connected with an impressive album from the 80s **Paradise**.

The previous album **D.MO Vol.2** (2008) provides us with good old analogue material. **Taste It** now features fascinating futuristic sound-landscapes and new compositions.

**Robert Schroeder** again creates a fantastic dreamworld. Voice-like synthiesounds on a base of modern Beats, Arpeggio-Sequencer patterns mystic choirsounds and dreamy melodies are surrounded by a spherical atmosphere.

By using some little analogue sounds *Robert* continues the dreamy atmosphere of his album **SphereWare** (2007) and enriches this with decent downbeats. The music as well as the 24 bit-recording is responsible for an excellent setting to dream, for space travels or just to chill out. 9 tracks, lasting 72 minutes altogether, feature different atmos, soft and meditative ones, as well as rhythmical vivid tunes.

**Please take your time for listening.**

**Increase the volume and enjoy your journey through the music.**

**Taste It!** Check it! Have pleasure!

**Best tracks:** 1, 2, 7, 8, 9

(9 Tracks /72 Min.)
